INFOTAINMENT WORKSTATION

Part Number: S-T-EJ-01
Price: \$ 3430.12

The features available are much the same as those provided by the Full Mission simulators as they are equally customisable. A number of simulators can be controlled from one centralised instructor station, this opens up the full potential of the simulation technology as environments can be altered mid-exercise in order to create realistic hazards and problems, adding an extra dimension to the experience in a safe and controlled environment.
